

GAGE CALIBRATION LAB

Fast, Easy, & Accurate Gage
Calibration

MADE TO
MEASURE
IS YOUR
ONE-STOP
METROLOGY
SOURCE
SERVING
CLIENTS
ACROSS NORTH
AMERICA
FOR OVER 35
YEARS.

NOW WITH
OUR GAGE
CALIBRATION
LAB, WE OFFER
ANOTHER
WAY TO
SUPPORT YOUR
MISSION OF
OUTSTANDING
QUALITY.

Why Choose Made to Measure Gage Calibration

- **Guaranteed Accuracy** - We calibrate using the latest equipment available. Our gage laboratory is a climate controlled facility and supported by highly experienced metrologists. Made to Measure holds ISO/IEC-17025:2017 accreditation, delivering true traceability to NIST.
- **Fast Calibration** - We offer the fastest calibration in Chicagoland with a 3 to 5 day lead time, minimizing downtime. Our technicians respond to inquiries immediately, helping to keep your operation running smoothly.
- **Calibration Made Easy** - Our gage lab makes your job easier with scheduled calibration reminders. We pick them up, calibrate them, and drop them off with all the necessary documentation. Companies within 30 miles of our lab receive free pickup and delivery.
- **Quick Data Access** - Calibration certificates are fast and easy to obtain in digital/print formats. We provide custom calibration labels with 2D barcodes. Calibration status and reports are available 24/7, helping to ensure you are compliant.
- **Best Value** - We offer the best value in the marketplace today with competitive pricing, free certificates, guaranteed 3 to 5 day calibration, minor adjustments, and complimentary pick-up and drop-off (within 30 miles of Made to Measure's Calibration Lab in East Dundee, IL).

Calibration of Gages and Other Instruments

Gage Blocks and Other Masters

Micrometers

Micrometers/Rods/Standards

Calipers (Vernier, Dial, and Digital)

Height Gages (Vernier, Dial, and Digital)

Height Set Masters - Height Masters/ Cadillac Gages

Dial/Test/Digital Indicators

Dial and Digital Bore Gages/Holemikes

Plain Pin Gage Sets

Plain Plug Gages

Plain Ring Gages

Profilometers and Surface Measuring Equipment

Radius Gages (Leaf Type)

Angle Gages (Leaf Type)

Pitch Gages (Leaf Type)

Rulers/Scales - Steel/Aluminum Rulers

Thickness Gages (Leaf Type)

Depth Gages

Thread Related Equipment

- Thread and Setting Plug Gages (UN and Metric)
- Thread Ring Gages (UN and Metric)
- Thread Measuring Wires
- Thread Setting Rods (60° and 55°)

Miscellaneous Gages

- Coating Thickness Gages
- Ultrasonic Thickness Gages
- Protractors
- Optical Flats and Parallels
- Scales and Balances
- Force Gages (Dial and Digital)
- Torque Measuring Tools (Dial, Digital, and Click Type)
- Gram Gages (Dial and Digital)

Made to Measure Guarantee

Made to Measure backs all calibrations with a 30-day warranty on variable instruments and a 90-day warranty on attribute instruments. If the instrument is no longer within calibration, we will recalibrate the instrument free of charge (subject to verification by our calibration expert). Disclaimer: Any number of factors including - abuse, misuse, unintentional adjustment, etc. can render an instrument out of calibration or non-functional.

Calibration Certificate No: L21-205
Dimensional Inspection Certificate No: L21-206

Official AUKOM Metrology Training Provider

ASME GDTP Certified Professionals

Compliant Management of Defence Related Data

Accredited Laboratory for Calibration &
Dimensional Inspection

YOUR ONE-STOP METROLOGY SOURCE

- Gage Calibration
- Dimensional Inspection – Partial to FAI
- CMM Programming – All Software
- Metrology Training – Print Reading, GD&T, and AUKOM
- Metrology Equipment – CMMs, VMMs, and Laser Scanners
- CMM Software – CMM - Manager, PolyWorks, Verisurf, and Modus
- CMM Service – Calibration, Relocation, and Retrofitting for any CMM
- Scanning - CT Scanning and Laser Scanning
- Reverse Engineering
- Part Sorting and Inspection Services
- Renishaw Supplies – Styli, Fixture Plates, Probing Components, and More
